INTERNATIONAL CONFERENCE ON COMPLEX ANALYSIS AND RELATED TOPICS

The 12$^{\text{th}}$ Romanian-Finnish Seminar

August 17-21, 2009, Turku, Finland

Second Announcement

The theme of the conference is current trends in geometric function theory and related topics. The program is divided into sections as follows:

1. Geometric function theory and classical complex analysis,

2. Quasiconformal mappings and Teichmüller spaces,

3. Potential theory and PDEs, geometric analysis, metric geometry and related topics in classical analysis.

The program consists of invited and contributed talks as well as poster sessions. Participants intending to give a lecture are requested to send a half page abstract by e-mail to the address below. The preferred abstract formats are Latex and plain text. For more information about submission of abstracts and registration see the conference webpage. The registration for the conference is now open at

> http://www.math.utu.fi/romfin2009/registration.html

Information about the confirmed speakers and about the program will be posted in the near future.

The early registration fee is **200 Euros until April 30** and **260 Euros from May 1 onwards**(students is 150 Euros). It will cover the conference material, refreshments, excursion and conference dinner.

Several blocks of hotel rooms have been reserved for the participants. For more details about accommodation see the conference webpage.

For additional information contact the Organizing Committee:
